

Wisconsin Lions Camp

Diabetes Supplies Packing List

Campers must bring their own supplies in order to ensure they are successful at managing their diabetes and staying in their own routine. Even though campers will be at Camp Sunday – Thursday night, plan for six days' worth of supplies. Pre-label all items with camper first and last name.

Suggested supply list:

- 4 pump sets (infusion set, reservoir, prep pads, etc.)
- 2 sensors (sensor, inserter, prep pads, tape)
- Lancing device and 10 lancets
- Personal glucometer and test strips for 6 days
- Charger for pumps/phones/receivers
- Tagaderm/other site coverings if needed
- Extra batteries for pumps
- Insulin for six days
- Receiver or cell phone

Camp provided items (do not bring):

- Places to plug in chargers
- Individual storage for supplies
- Refrigeration in all buildings for insulin
- Cotton balls
- Ketone test strips
- Sharps containers
- Food for treatments (granola bars, string cheese, fruit snacks (GF), juice)
- Emergency/rescue medication – Gvoke HypoPen
- Glucose gel
- Glucose tabs
- Back up glucometers, test strips and lancets
- Back up insulin and syringes
